Invitation

House Fair Spain

16 -17 November 2010

Mediterranean Taste

The House Fair this year:

- Wide and diverse products exposition
- Tomato and pepper novelties
- Professional business chain participants
- Sessions of experts in the European markets
- New variety showroom

We have organized our programme in such a way that we are able to personalize your visit as much as possible. You will get the opportunity to visit our demo greenhouses, to see the newest varieties which we have developed. Enza Zaden likes to support all partners in the vegetable supply chain by creating and advising about business opportunities. For that reason, we also invite you to this event.

During the House Fair, Enza Zaden will take care of lunch, dinner and drinks. Hotel accommodation can be arranged by Enza Zaden but is at your own expense. A number of clients from the entire chain and several countries already registered for this House Fair. As we expect more visitors we would appreciate it if you could send us your reaction before 5th of November 2010.

We hope to welcome you in Spain!
